## **Austrian Airlines reopens services to Tehran**

Dear travel agency partner,

Austrian Airlines is to re launch its services to the Iranian capital, Tehran, from 11 March 2014 onwards. The flights will be operated five times a week using an Airbus A320 or A319 bearing the flight number OS 871/2. The international airline already had a long tradition with the Middle East. She flies since 1984 to the Iranian capital. Austrian Airlines removed flights to Tehran from its schedule in January 2013 for commercial reasons.

The Austrian national carrier is now pleased to be able to offer its passengers the service once again.

The following flight times will apply from 11 March 2014 onwards (local time):

OS871 Vienna - Tehran 20.10 - 03.00 +1

OS872 Tehran - Vienna 03.55 - 06.00

**Happy Selling!**

**Thanks for the usual support.**
