

5 increased flights to Amsterdam

Reaching 19 weekly

Emirates will introduce five additional flights per week from Dubai to Amsterdam due to strong market demand. These additional flights will complement its existing double daily services, offer an earlier departure option from Amsterdam that is convenient for visitors to Dubai, and provide enhanced connectivity to destinations on Emirates' global network.

Four additional weekly services will be started effective 1 December 2018 and the fifth will be added from 1 January 2019, increasing frequency to the Dutch capital city to 19 weekly flights.

Outbound, flight EK145 will depart early morning from Dubai on Monday, Wednesday, Friday, Saturday and Sunday, and arrives at Amsterdam Airport Schiphol in time for breakfast, allowing customers to make the most of their day in the city. The flight schedule is conveniently timed for passengers connecting from Emirates global route network to Amsterdam and will be popular for business travellers to the Netherlands including Tehran.

The new service will be operated by an Emirates **Boeing 777-300ER** in a three class cabin configuration, with eight private suites in First Class, 42 lie-flat seats in Business Class and 310 spacious seats in Economy Class. This complements the two existing services between Dubai and Amsterdam, flights EK147/EK148 and EK149/EK150, operated by an **Airbus A380**.
