QATAR AIRWAYS FIRST Airbus A350-1000 LANDING in IKA

Qatar Airways today celebrated the first landing of Airbus A350-1000, the latest member of the Airbus wide-body aircraft portfolio, in Imam Khomeini International Airport on QR483 at 11:35 AM becoming the first international airline achieving this feat & celebrating the same with its passengers on July 3, 2018.

Compared to the A350-900, the A350-1000 features 44 extra seats, with a two-class cabin of 46 award-winning Qsuite Business Class seats in a 1-2-1 configuration, featuring 80-inch fully flat beds and 22-inch HD in-flight entertainment screens. This will include 46 suites, with the middle suites able to convert to six double beds, and six quad suites. Economy Class will contain 281 seats, each 18-inches wide in a 3-3-3 configuration, with up to a 32-inch pitch. Each individual seat will feature an 11.6-inch in-flight entertainment screen, and extra space at shoulder level for passengers in window seats, thanks to the near vertical side wall panels. It offers enhanced levels of passenger comfort, thanks to the lowest twin-engine noise level of any aircraft, advanced air conditioning technology and full LED mood lighting.

As the world's most efficient large aero engine, they save around \$2.9 million per aircraft per year on fuel.
