Dear Travel Partner,

As you were informed in Amadeus sign before, married segment abuses are being monitored by Turkish Airlines and ADMs will be issued for any PNR in which the bookings are created via MS manipulation. The following will be considered as Married Segment abuse;

- A) Manipulation on married segments
- B) Partial cancellation made against applied rules
- C) Booking fictitious flights in order to to book for a lower class

Married segment violations will be resulted to be blacklisted for TK flights and services in all means.

Please note that, differently from Turkish Airlines' other ADM procedures, Married segment violation (breaking of married segments or ticketing of only one sector) will be sentenced to **ADM of 300€** (or equivalent in local currency) per passenger.

For more information you can refer to below link:
