Your customers can enjoy the privacy of their own personal suite, or work, dine, and share their journey with friends and family in our fully adaptable quad-seating configuration. With over 4,000 in-flight entertainment options and our world-class service, discover Business Class like never before.

During this crisis, we have become the largest carrier flying over 50 million kilometers, to repatriate over 1.8 million passengers on over 18,000 flights, navigating international airport procedures and implementing the most advanced safety and hygiene measures as the only experienced international airline carrying passengers to over 40 destinations.

We have been there, and we will continue to be there as an airline they can trust.

Their safety, security and well-being is our first priority. Therefore, all our crew will now be wearing full-body protective gear on-board, to keep both our crew and them safe on their Qatar Airways journey.

We recommend all passengers to kindly check the information published by the Government of their destination country before travelling and visit the official website of [International Air Transport Association \(IATA\)](https://www.iata.org).
