Collection of Advance Passenger Information (API) for all Qatar Airways Passengers

Dear Valued Partner,

We would like to remind you that as per correct Reservation Standards, it is important to ensure that only correct passenger information is updated within PNR elements such as SR DOCS, SR DOCO and SR DOCA, given the sensitive nature of these elements and the involvement of Customs, Immigration and Border Authorities across our network.

Entering incorrect or fictitious data to complete ticketing transactions is a violation of our booking and ticketing procedures and could result in Qatar Airways restricting access to its flights for your Agency.

For more information please visit qatarairways.com or contact your local Qatar Airways sales representative.

Thank you

Qatar Airways
